PROFILE

I have recently completed my Bachelor's Degree in Computer Science at the University of Pretoria and looking to start my career as a software developer. During my period studying I worked on various personal projects to enhance my programming skills and improve my understanding of the various data structures and design patterns.

I am a diligent and motivated worker and always enjoy learning in areas that interest me..

KEY SKILLS

- My main programming skills include C++, Java and x64 assembly
- I have developed skills in web development as well as some limited experience with mobile app development
- I have worked with both SQL and NoSQL databases
- I have experience in working with Git, Github, Zenhub and Google's firebase
- I have a good understanding of various data structures as well as many design patterns
- I work efficiently individually and as part of a team

EDUCATION

INTERESTS

When I am not working on my computer or playing computer games I enjoy outdoor activities including swimming, diving, snorkelling, jogging, wildlife, water skiing and boarding, snow skiing and snowboarding.

I like to play soccer and the occasional tennis and squash game.

I also enjoy travelling and seeing new places
