

DYLAN SCHWIKKARD

SOFTWARE DEVELOPER

PROFILE

As a recent Computer Science graduate, I am looking to expand my career in software development. I am a dedicated and self-motivated developer, eager to deliver creative and innovative software solutions. I am a quick and eager learner and although my experience up until now has been mostly dealing with front-end technologies, I have limited experience in back-end development.

EDUCATION

University of Pretoria

2016 - 2019
BSc. Computer Science

Ashton International College, Ballito

2010 - 2015
IEB Curriculum. Top 10 for my year as well as recipient of the IT award.

WORK EXPERIENCE

Monkey and River, Front end Developer

October 2020 - Present
I am currently working as a Front developer at Monkey and River, a software consulting company based in South Africa.

University of Pretoria/EPI-USE, Software Developer

January 2019 – November 2019
As a final year project, for the company EPI-USE, I worked alongside a team and created a mobile application along with an admin portal to track and manage rangers in a game reserve.

Flag Animal Farm, Waiter

November 2016
Working as a waiter gave me experience as being part of a team and helped as well as improving my communication skills.

Trappers, Sales Representative

December 2015
Working as a salesperson for Trappers, a camping store, contributed to my communication and people skills.

PERSONAL PROJECTS

Notes App, Ionic

2020
To increase my Ionic skills, I gave myself a project to create a simple, yet fully functional Ionic app to take notes, catering for CRUD operations and making use of local storage.

Full Stack App, (Angular, NestJS, MySQL, Ionic)

2020
Though, not yet complete, I have been working on a full stack application. This consists of a mobile application, developed in Ionic, an admin portal created with Angular, a NestJS backend, with a MySQL database.
